INDIA'S COMMERCIAL capital and the corporate headquarters of many top ranking companies Mumbai will host nation's biggest pharmaceutical leadership summit- 'The Pharmaceutical Leadership Summit 2010' under the theme 'Limitless Leadership – Bringing Today, Tomorrow and Beyond', will be presented by Pharmaleaders and Indo-American Chamber of Commerce on June 25 and 26, 2010, at Majestic Hall, Hotel Intercontinental, Mumbai, India. The two day summit is being organised with a view to bring together leaders from the industry and crystallise their views and thoughts and assist the industry to find solutions and strategies to help the Indian pharma industry face challenges adroitly and seize opportunities as they arise. The who's who of pharma industry like Tapan Ray, director General OPPI, Kewal Handa of Pfizer Ltd, Anuj Saxena of Elder Healthcare, Dr Ramakant Panda of Asian Heart Institute, Huzaifa Khorakiwala of Wockhardt and a host of other big wigs will be debating some of the crucial topics of tremendous significance confronted by the industry. More than 400 industry professionals, Pharma Academia, bureaucrats, medical practioners will be attending the high profile event.

Apart from the Indian industry the summit will also see sizable presence of professionals from Srilanka, Bangladesh, Middle East, United states and other countries with close pharma relations with India. By hosting the pharma summit at a time when the nation is being rocked by instability in the economy and the corporate world, the organisers also wish to send out a message that while some other sectors have been adversely affected, the pharma and associated industry continue to progress and have managed to shrug off the effects of the depression across the world. It is also the right time for the industry to rise and review its performance, its people and assess the requirements of the industry. The summit provides a perfect opportunity for all players in the pharma world to come together and learn from the leaders of the industry. The summit is deliberating many critical topics of tremendous significance confronted by the industry.
